

Year 2 Autumn 2
Learning Challenge
What do animals do in the dark autumn and
winter days?

As designers could you:

- Create a beautiful owl collage using a variety of different fabrics and materials? Can you make your owl look realistic?

As computer scientists could you:

- Research nocturnal animals and prepare a PowerPoint presentation?
- Redesign the front cover of 'The Owl who was Afraid of the Dark' using Paint or a similar programme.

As writers could you:

- Design your own owl 'fact file', full of interesting information about these birds of prey? Remember to use your own words. Maybe you could use a computer to help you.
- Keep a wildlife diary of the birds and animals you see in your garden, around your home or even in the local park/countryside. Perhaps you could even photograph the creatures you spot and write a short description about them?

Here are some ideas for this half term's home learning. Let's see if everybody can complete at least one challenge. You are, of course, welcome to do more than one! Challenges are to be completed over the half term and should be brought into school by

Monday 15th December.

We will look forward to seeing your completed challenges.

Any questions, please come and see us.

Mrs Evans
